PUGH STILL PUSHING.

Latest From Washington About the New Kentucky Judgeship.

A Courier-Journal special from Washington on Saturday says the visit of Representative Pugh to the White House Friday was more lengthy than usual, the President allowing him fifteen or twenty minutes, according to the Star. Mr. Pugh's chances have "again" been strengthened by "about twenty judges of the Court of Appeals and Circuit Court having signed strong recommendations of Mr. Pugh's legal abilities."

Senator Deboe and Representative Pugh are still confident that the latter will be appointed, though it cannot be learned that the President has given any intimation that he will take this course. The Pugh line of fight seems to be on the idea that the more the President is sent the more the Pugh's chances improve until finally he is to be appointed simply to get rid of him. The only thing standing in the way of Mr. Pugh's appointment is the question whether the President will reach a decision on the Judgeship in the same manner that he would pass upon a Justice case. Anyhow the President will do something for Pugh if he does not give him the Judgeship.

The Republicans of Northeastern Kentucky, as well as those of Boyd county, are now without an "official organ" since The Ashland News suspended, but The Ashland Independent furnishes them with an excellent quality of local news—and plenty of it.

The Filipino General CAILLANS has issued a proclamation offering ten Mexican dollars apiece for the heads of Americans, as Mexican "dollars" are worth only about fifty cents each, the price per lb. is not very much, true, but the offer should inspire the anti-imperialist copywriters in Boston and elsewhere to renewed efforts in behalf of the poor Filipinos, who are so accomplished in civilization and so competent for self-government.

A DISPATCH from Fulton says ED. SMITH met Captain HARDMAN ROBINSON of the State Guards on the street at that place and shot him, the wound being almost identical with that of Senator GOEBEL. That cannot be, the ball went through GOEBEL's body vertically, showing beyond the possibility of a doubt—according to TOM CAMPBELL's expert professional perjurers—that the shot was fired from the first story or the second story or some other part of the building in which CALDER POWERS's office was located. SMITH was standing on a level with Captain ROBINSON when he shot him, and the bullet must have gone straight through!

Then, again, to have Captain ROBINSON's wound identical with that of Mr. GOEBEL, it is necessary that the wound be larger where the ball went in than it is where the ball came out; and, according to the learned Sawbells who have spoken, Mr. GOEBEL's body presented the only wound of that kind that was ever heard of!

However, any of the local readers of THE LEADER who are curious to see the "funny-looking" of a pistol ball when it once gets loose, are invited to visit Judge NEWELL's office. One day last week Constable DAWSON dropped a revolver in the hallway at the Courthouse. The weapon was discharged, the ball entering the Judge's office through the space between the door and the frame, tearing the wall on either side; it then struck a panel in a bookcase, being deflected at an angle of about forty degrees, passing through a sack above the Judge's desk, fully fifteen feet in an opposite direction from that in which the ball entered the room! Take a look at these "scars," and then say if you would be willing to swear where that bullet started from, unless you had seen them!

IN CONGRESS.

Real Struggle for Insular Legislation Begun in the Senate—A Night Session.

Washington, Feb. 26.—The real struggle for insular legislation at this session began Monday in the senate. The army appropriation bill was under consideration and the Philippine amendment was reported. In addition the Cuban amendment was offered and the general debate on these propositions began. Sharp opposition to the Philippine amendment developed on the democratic side, beginning with a point of order which the senate overruled and followed with speeches by Senators Tillman, Rawlin, Caffery, Bacon and Morgan. The amendment was defended by its author, Mr. Spooner, who pointed out the necessity for the legislation.

Senators Vest, Hoar, Bacon and Rawlin offered amendments tending to limit the powers conferred by the Spooner amendment. Senator Morgan, in an extended speech, severely criticized the proposed legislation. An evening session was held to allow time to continue the debate.

The house Monday jettisoned the authorization for two battleships and two cruisers which were in the naval appropriation bill as it passed that body. The senate had rejected the proposition, and after the appeals of the house conferees the house Monday voted by a big majority to reject the senate amendment.

Chairman Cannon, of the appropriation committee, contributed largely to this result by a vigorous speech in favor of the senate amendment. Partial conference report on the naval bill was agreed to and the bill went back to conference. The house also agreed to the conference report on the bill to create a commission of five to adjudicate the claims of United States citizens against Spain assumed by the United States under the treaty of Paris. Just before adjournment, Mr. Tammey, chairman of the St. Louis committee, which was asked unanimous consent to disagree to the senate amendment to the exposition bill, but Mr. Shepherd (Tex.) objected.

JEFFERSON, JR., RUNS AWAY.

Grandson of the Famous Actor Threw of a Military School in One Day.

Joseph Jefferson, 12-year-old son of Thomas Jefferson and grandson of Joseph Jefferson, the great impersonator of "Wig Wam," was a lodger in the Yonkers (N. Y.) police station the other night.

Joseph the younger lives in Montclair, N. J. His father is starving in Indiana. His mother turned the little fellow over to the St. Matthew's military school at Dobbs Ferry the other night. He was to have stayed at the school until June. He did not like the prospect and decided to set out for Montclair. He got permission to leave at 8 p.m. on the afternoon and struck for the railroad track. He recalled dully the direction whence he had come from Manhattan, and headed to the southeast. The sun went down behind the Palisades and Joseph began to feel lonesome, as the night was too cold for luxury-loving tramps to be out alone. He tried along and saw a light in a tower down the track. He went up the stairs of the tower and at the top found a good-natured man.

"What time is it, mister?" the boy asked.

"About six o'clock my boy," the tower-keeper said. "Come in and get warm; you look half frozen."

Then Joseph told all about himself, and the towerman hailed a peacemaker to bring him to the house where he had a runaway boy. The little fellow had left his overcoat at Dobbs Ferry. He refused to go back to the school. He got a good supper and a comfortable bed, and was sent to his home in the morning.

Take a cup of Arbuckles' Coffee and a cup of the "cent-a-pound-cheaper" kind. One taste of each will prove to you that the reason Arbuckles' costs a little more is because it's worth more. It's selected with greater pains, roasted with greater care, packed with greater skill. It comes to you as fresh as when it left the roaster. Not a particle of its strength or flavor lost. Cheap coffee lacks both strength and flavor.

ARBUCKLES' Roasted Coffee

is cheaper in the end than other coffees because it makes more cupfuls to the pound and gives far greater satisfaction.

With each package of Arbuckles' Coffee you purchase a definite part of some useful article—which is yours on presentation to our Notion Dept. of a certain number of signatures cut from the wrappers. You'll find a list of the articles in each package.

A Mississippi Sheriff sent to Andover a box of express packages containing \$5,280 collected as taxes, without a line showing to what county it should be credited. It took two weeks' time and labor to ascertain that Lee county was entitled to credit for the amount.

This cement can be used for plastering walls, and dries so speedily that rooms are ready for occupancy within forty-eight hours. It can be painted or else colored by mixing coloring matter.

German plantation experts claim that the Samoan Islands have a great future in coffee, tobacco, cotton, etc. Upolu island, it seems, is especially suitable for the culture of these products, possessing, as it does, favorable position, a fruitful soil and a good climate. A company is at present being formed in Germany for the purpose of exploiting this island—laying out plantations, establishing narrow-gauge railways, etc.

Cattlemen in South Dakota are generally agreed that it is time to abandon the present method of branding cattle as cruel. WE... HAVE...
Taken an account of stock, and as there are always some good goods in all first-class stores that become out of date we have arranged a CHEAP TABLE, upon which we have placed such goods, and are now ready to show them. All old residents remember our famous Cheap Tables, and that these goods will be just as represented. This "ad" is a little out of our ordinary way of doing business, but we are still progressive. The old reliable.

These are all reasonable goods, and the demand for them is increasing every day.
